Romanyk Consulting Awarded 8(a) STARS II Governmentwide Acquisition Contract (GWAC)

We Support Federal Government Information Technology
(IT) Services or IT Services-based Solutions

We are proud to announce that we have been awarded an 8(a) STARS II Governmentwide Acquisition Contract (GWAC). 8(a) STARS II is a multiple-award, indefinite-delivery/indefinite quantity (IDIQ) contract designed to provide technology solutions to federal agencies from award-winning 8(a) small businesses. The 8(a) STARS II GWAC is intended to promote small business utilization by the federal government when purchasing information technology (IT) services or IT services-based solutions.

RCC and other industry partners were awarded this contract due to our ability to demonstrate competitive pricing and technical proficiency. The 8(a) STARS II design consists of two constellations (Constellation I and Constellation II) based on industry accreditations. RCC's Constellation I designation includes the below functional area as outlined by the North American Industry Classification System (NAICS):

- **Custom Computer Programming Services (NAICS – 541511)**

The 8(a) STARS II program is reserved exclusively for qualifying certified 8(a) small business concerns as the prime contractors. The federal government, using 8(a) STARS II will be able to access 8(a) firms through an established contract vehicle instead of traditional, open market methods. This GWAC saves both time and money for federal agencies as well as provides access to proven 8(a) small business technology providers.

We have outlined a few features of our awarded 8(a) STARS II GWAC below:

- Pre-competes, easy to use contract with streamlined ordering procedures
- Direct task orders up to \$4 million for federal civilian and Department of Defense activities
- Multiple award, indefinite delivery indefinite quantity (IDIQ) contract vehicle
- 8(a) socioeconomic credit transferrable to the agency
- Shortened procurement lead time
- Promotes contract compliance and reduces risk of adverse audits
- Offers access to pool of contractors with industry credentials
- Minimizes protest risk and supports timely order award for optimal mission support

For more information on how the 8(a) STARS II GWAC can support your information technology requirements, please contact us directly or visit our website at www.romanykconsulting.com.

National Veteran Small Business Conference and Expo

Pleased to Participate and Support the Department of Veteran Affairs

We were happy to participate in the National Veteran Small Business Conference and Expo, held at the Ernest N. Morial Convention Center in New Orleans, LA. The conference took place over the week of August 15th and featured over 420 exhibitors, including our team.

This year's conference had over 4,300 participants (exhibitors and registrants) from Veteran-owned companies, small businesses, large contractors, and government. The Department of Veteran Affairs in partnership with the Veteran Federal Interagency Council hosted the event and we were pleased to participate and support the conference.

We thank those individuals that met with us during the conference and look forward to building on relationships discovered during our time in New Orleans. Our team is looking forward to participating again in 2012.

Facilities Maintenance and Management GSA Schedule Contract

Let RCC Support You with Facilities Maintenance and Management

Our team is proven in providing solutions and services for federal agencies. We have been recently awarded an additional U.S. General Services Administration (GSA) Schedule Contract.

The GSA Schedule Contract is the most widely used government contract vehicle. Our new GSA Schedule Contract focuses on Facilities Maintenance and Management. With the addition

of the new GSA Schedule Contract we now have GSA Schedule Contract vehicles for the following Special Item Numbers (SINs):

- 874-1: Consultation Services Listing
- 874-2: Facilitation Services
- 874-3: Survey Services
- 874-7: Program and Project Management Services
- 132-51: Information Technology (IT) Professional Services
- **811-006 Facilities Maintenance and Management Consulting (Recently Awarded to RCC)**

The RCC awarded Facilities Maintenance and Management GSA Schedule Contract qualifies us to provide facilities consulting services for our clients. Our teams consulting services within SIN 811-006 includes, but are not limited to development, planning, facilitation, coordination, documentation, audits, inspections, evaluations, studies, analyses (including cost), scenarios, reports, policy and regulation development assistance for initiatives in areas of facilities maintenance and management solutions.

For additional detail or information on RCC's capabilities to provide support for your facility needs utilizing our new GSA Schedule Contract vehicle, please contact us.
