

2019 FEDERAL SMALL BUSINESS CONFERENCE FOR THE A/E/C INDUSTRY

**NOVEMBER
20-22, 2019**
DALLAS • TEXAS

Architecture | Engineering | Planning | Information Technology (IT)

Romanyk Consulting Corp. (RCC), a Service Disabled Veteran Owned Small Business (SDVOSB) founded in 1996 by Nick Romanyk, a Veteran himself, is proud to support those that fearlessly served our country by providing Architecture, Engineering, Planning, and IT services to VA Hospitals and Medical Centers across the United States and it's Territories. As a result, RCC has a long-standing relationship with the Department of Veterans Affairs (VA) and in-depth knowledge of the VA's mission, processes, planning tools, initiatives and requirements. This knowledge comes to us, in part, by our professional staff inclusive of former VA CAM's, Chief Engineers and Facility Planners. Our work is very rewarding as it allows us to be a small, yet important, part of our industry that is working hard to ensure our heroes have safe, clean and well designed healthcare facilities for decades to come. Below is a brief list of A/E and Consulting Services RCC provides to the VA:

Architect / Engineering Services

- New Construction & Renovations
- Seismic Project Books
- Infrastructure Improvements
- Sustainability
- Peer Reviews
- Construction Period Services

Planning Services

- Master Planning
- SEPS | Space Planning
- BIM | Facility Management
- Space Inventory & CAI Management
- Patient & Process Flow

Specialty Services

- Facility Condition Assessments
- Physical Security Assessments
- Legionella Prevention
- Seismic Deficiency Corrections
- Life Safety Survey & Drawings

Please come by our booth, #1508, to discuss your needs, see if our specialized services can serve your operations or project requirements, or just to say hello. Our team can answer any current or future project related questions you might have all while enjoying a comfy seat and fun giveaways. We look forward to seeing you there and if you can't make it this year, please visit our website and reach out with any questions via our contact information below.
